CONTEXT:

Established in 1951, IOM is a Related Organization of the United Nations, and as the leading UN agency in the field of migration and works closely with governmental, intergovernmental, and non-governmental partners. IOM is dedicated to promoting humane and orderly migration for the benefit of all. It does so by providing services and advice to governments and migrants.

Sexual Exploitation and Abuse (SEA) by aid workers is a violation of human rights and IOM is committed to combat any kind of SEA by its staff related personnel and partners. IOM's zero tolerance policy not only applies to IOM staff but also extends to IOM third party contracted

staff, suppliers, service providers and implementing partners. With over 16,000 staff and over 6,000 related personnel, operating in 450 Offices, and 165 countries throughout the world, the impact of SEA on victims and within IOM's operating environments, and the reputational risk it poses for the Organization needs to be addressed and remains a key priority.

The protection against Sexual Exploitation and Abuse (PSEA), including the prevention of and response to SEA, continues to gain momentum not only within the United Nations (UN) and Interagency Standing Committee (IASC) common systems but also amongst governments, institutional partners, media, and the public.

Over the past decade, IOM has increasingly been seen as a strong player supporting the prevention and response to SEA and Sexual Harassment within the UN, IASC, and amongst the humanitarian community. While significant progress has been made to prevent and respond to SEA within the Organization such as through the development of innovative PSEA trainings, the development of a misconduct platform to report SEA, and extensive interagency collaboration on PSEA, more needs to be done within country and at the programmatic level and the PSEA Officer will support these efforts.

In 2021, IOM developed its strategic approach toward the prevention of and response to SEA and sexual harassment focusing on five priority areas:

1. Leadership and Organizational Culture.
2. Institutional Accountability and Transparency.
3. Capacity-Development, Training, and Communication.
4. Quality and Accessible Victim Assistance.
5. Partnership and Coordination.

With the large-scale humanitarian crises in northern Mozambique which sees over 750,000 people displaced, the risk of sexual exploitation and abuse committed by humanitarian workers, government officials and community leaders involved in distributions or provision of services to the affected population, is much higher. IOM is one of the largest agencies in Mozambique with almost 700 staff deployed across the south, central and northern regions of Mozambique. Hence it is of utmost importance to intensify interventions and activities that seek to prevent, mitigate, and respond to sexual misconduct. In this regard, IOM Mozambique has made PSEA commitments that include inter-agency coordination to prevent and address SEA incidents, including active participation in the national PSEA Network and the PSEA Network at Cabo Delgado, Sofala level, and Nampula.

Under the overall guidance of the IOM Chief of Mission and the direct supervision of the PSEA Coordinator, the incumbent will be responsible for supporting the implementation of IOM's prevention of and response to sexual exploitation and abuse (PSEA) activities in Mozambique, with particular focus on Northern Mozambique. As the technical PSEA Focal Point in Northern Mozambique, the PSEA Officer will need to support the aspects of implementation of PSEA activities in direct close coordination with the PSEA Coordinator, both internally and as an active member of the interagency PSEA Network. While the incumbent will support the PSEA

agenda within the Country Office and will contribute technical inputs to PSEA within programming, the accountability for PSEA remains with the Chief of Mission.
